

Smith & Nephew Pharmaceutical, Hull

Client: Smith & Nephew

Project Value: £ 670,000

Location: Hull

Completion: 2011

“Medical production plant remained running 24/7 without interruption “

Description of the Works:

The Project involved the full design and installation of new electrical services within a Pharmaceutical production facility operating 24/7. Production of high demand medical products for the military, had to be kept running, whilst Wheatleys team of engineers replaced the main bus-bar and tap off unit within the facility. Every section of work was completed under strict clean room controls, with equipment and tools medically serialized every day.
